## Technical Skills Frontend

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks/Libraries:** React.js
- **Styles:** Bootstrap, CSS vanilla
- **Tools:** Git, GitHub, Postman, ESLint

## Backend

- **Lenguajes:** Node.js, JavaScript
- **Frameworks:** Express.js
- **APIs:** REST APIs

## Database

- **NoSQL:** MongoDB
- **Sql:** Sql Server, MySql

## Agile Methodologies

- Daily
- Sprint planning
- Retrospectives

## Featured Projects

### Prescription Management System - Collaborator

Deployed on Netlify | Available on GitHub

Built a responsive recipe search app with dynamic filters, CRUD operations, and custom alerts using SweetAlert2. Integrated MongoDB backend via RESTful API.

#### Main features:

- Complete CRUD for recipe management
- Responsive and user-friendly interface
- Optimized NoSQL database
- User, Administrator Roles

#### Demo:

### Cafeteria Platform - Personal

Deployed on Netlify | Available on GitHub

Complete CRUD-style web application for recipe management developed with the MERN stack. An intuitive system that allows users to create, read, update, and delete recipes with advanced filtering features. **Main features:**

- CRUD for product management
- Real-time search system
- Pagination to optimize performance
- Intuitive administration panel

**Demo:** <https://catalogocafe.netlify.app/>

## **Web Movies - Collaborator**

Deployed on Netlify | Available on GitHub

Web platform dedicated to the world of movies with an intelligent filtering system and specialized sections. Optimized user experience for browsing content by category.

### **Main features:**

- CRUD for movie management
- Filter system for featured movies
- Dedicated section with complete catalog • Modern and responsive interface

**Demo:** <https://moviesxtream.netlify.app/>

## **Clothing E-commerce (In development)**

Current project

Complete e-commerce platform for clothing sales with all the modern features of a professional e-commerce store.

### **Features in development:**

- Product and category system
- Shopping cart
- User management
- Administrative panel

**Tecnologías:** React.js, Node.js, Express.js, MongoDB

## **Education and Training**

**Full Stack Web Developer**

**Web Development Academy:** React course – Rollin Code (2025) –

Focused on hooks, routing, and component architecture

San Miguel de Tucumán, Argentina

**Programa completo que incluye:**

- Frontend development with React.js
- Backend development with Node.js and Express
- Databases with MongoDB
- Version control with Git
- Deployment and production

**Initial Project – Collaborator**

**Mates Ecommerce Website**

First project developed with vanilla HTML, CSS, and JavaScript as an introduction to web development. Demo:

<https://mateandoshop.netlify.app/>

**Soft Skills**

- **Self-Taught:** Ability to learn new technologies independently
- **Problem-Solving:** Experience identifying and solving technical issues
- **Independent Work:** Demonstrated ability to complete projects autonomously
- **Adaptability:** Experience working in different sectors and adapting to new environments
- **Results-Oriented:** Track record of successfully completed and deployed projects

**Languages**

- Spanish: Native
- English: Intermediate

**Availability**

Available for remote work. Immediate start.

*“Available for remote opportunities. Eager to contribute and grow in a collaborative tech environment.”*
